

Bill Giltz

Class of 2009

Architectural Masters Specialist Fischer Homes

Education after BHS:

After high school, I attended Ball State University and majored in Architecture. In the Spring of 2013, I graduated with my Bachelor of Science degree in Architecture and I earned a Master's of Urban Design degree in 2014.

Career Summary & Awards:

I am currently an Architectural Masters Specialist in the architecture department for Fischer Homes, a regional home builder based in Northern Kentucky. My team and I are responsible for taking the initial design drawings from preliminary design and incorporating all options in a platform that other production teams can use to create customized floor plans for our customers. We are going through software changes currently that is taking our drawing time from three to five days down to 20-30 minutes!

Family:

My parents are Mike and Lori Giltz. I have two older sisters, Christin (Giltz) Weaver ('01) and Carrie (Giltz) Salatin ('06), and six beautiful little nieces whom I love to spoil. I currently live in Batesville with my Golden-Doodle, Bentley.

Activities while at Batesville High School:

During my time at BHS, I was involved with National Honor Society, KSLA, SADD, and Mayor's Youth Council.

Best education-related memory from BHS:

My four years at BHS were great...having the support and encouragement from all the faculty and mentors to push me to be the best that I could be all while making life-long friendships and lasting memories, made for a rewarding education! One of the most memorable experiences would have to be flex class with Mr. Lemen. He always found a way

to make us all laugh and put a smile on our faces; whether it was hiding under his podium, jumping out of the closet, or posing for a yearbook picture in the display case outside his classroom. It is faculty members like Mr. Lemen, who know how to make learning fun, that make a lasting impression on students.

A personal quote about the importance of education:

All good things are supported by a solid foundation. Education is the foundation for your life; make it worthwhile to last for years to come! Just as a house cannot stand without a proper foundation...so, too, your life cannot stand without a solid education. Education is the foundation of success and with a Batesville education, you will succeed!
