

Jacqi Hornbach

Class of 2002

Activity Director, The Waters of Batesville

Career:

- I spent some time studying elementary education at Ball State and then moved to Atlanta, where I went to fashion design school. My first job was at the Sisters of Saint Francis, where I started on my 14th birthday. Since then, I've dabbled in many jobs, eventually settling on owning an online store where I sold vintage and antique jewelry for years. I decided I needed something more stable and on a whim took a job here at The Waters as Activity Assistant. In the three years I've been here, I worked my way up to the Activity Director position.

- I am so incredibly blessed to be able to make a difference in my residents' lives every day. They have taught me more than I could ever teach them. I have always been a natural caregiver and seldom will you see me without a smile on my face. I feel like I was born for this career and I am so thankful for the opportunity to make people's days better.

Family:

- I live here in Batesville and have a furbaby Macey, who is my everything. I have the most amazing, supportive parents, two older sisters, and love to dote on my only niece, Nyla.

Activities while at Batesville High School:

I played volleyball for BHS my freshman year and CYO Volleyball all through high school.

Best education-related memory from BHS:

I have nothing but wonderful memories from my time at Batesville High School. Mr. Zimmerman, Mr. Heppner, Mr. Allen, and Mr. Seright were among my favorite teachers and really made me enjoy their classes.

A quote about the importance of education:

My favorite quote about education is by Mark Twain. He states, "I have never let my schooling interfere with my education." I think education is extremely important, but sometimes following your heart gets you farther.
